SCENERY IN THIS STATE.

Southern Utah has scenery for the world and is just beginning to let the world know the beauty and grandeur to be found in the canyons of that part of the state.

At present Governor Mabey, Mayor Neslen of Salt Lake, high officials of the dominant church, the head of the Union Pacific system and representatives of a number of commercial clubs are in Cedar City, preparatory to visiting Cedar Breakes, Zion and Bryce canyons. At last all the fine scenic attractions of Utah are to be advertised to the outside.

California has been built on scenery and climate, and California has no scenery to equal that of Utah.

Colorado has entire cities supported by tourists drawn to the Rocky mountains by the stories of the Garden of the Gods. Pike's Peak and other wonders of pature. All that Colorado possesses and more, can be seen in Utah.

We lack in the art of advertising. We have been content to have the stranger find for himself the beauty headline spots and the awe-inspiring gorges. canyons and mountain tops. The time has arrived when we should begin to shout our own praises from the house- to disguise himself as a woman will

MOB HYPNOTISM.

Under the influenceof that peguliar form of psychology known as "mob hypnotism," it takes the average person about 30 seconds to throw off the ried 700 times without an auto mask of civilization and revert to the lowest form of savagery.

The other day in Cleveland, an auto driver speeding 50 miles an hour mate doesn't agree with him through congested streets was pursued by motorcycle police. Other on the stage. Ruth has been pulling auto drivers joined in the chase, like some fine comedy. small boys chasing the fire engine.

cults and similar phenomena. Most of us are reasonably sanewhen alone.

But whenever human beings congregate in large groups, something crazy always happens or is started.

When people swarm together, a mysterious psychic current is generated and, by hypnotism, leads them to do queer things. Thus you see quiet, respectable people make fools of themselves in cabarets. A dignified person at a dance sometimes catches the fever and begins cutting up like a lunatic. Jokers utilize this principle to get men at a banquet to wear absurd tissue-paper dunce hats. And the wearers seem to enjoy it, though they wouldn't wear the hats for \$100 except under "the spell" of mob hypnosis.

The tendency that people have, of making asses of themselves when they 870 get together in large groups, may explain why we do so many fool things when we get together in the form of government.

It was audacious of him and he was prepared for anything—a laugh applause, indignation, or all together. But he was not prepared for what came. And it came so suddenly and spontaneously from the groundlings and the hody of those in the amphitheatre that he was almost scared by it—a boy may be scared who has held a match to a sun-scorched hay-rick. It was a hurricane of furious applause. Men leapt to their feet, sprang up on to the benches, waving their hais in the air, deafening him with the terrific uproar of their acclamations. And it rolled on and on, nor ceased until the curtain fell.
